**EUROVOICES**

2024

SELECTED FINDINGS  
AT THE COUNTRY LEVEL:

**Lithuania**

# Introduction

**WORLD JUSTICE PROJECT EUROVOICES (WJP EUROVOICES)** measures people's perceptions of and experiences with the rule of law, justice, and governance in 110 subnational regions across all 27 EU Member States.

WJP EUROVOICES draws upon two original data sources:

## EXPERT SCORECARD

Reflecting more than 8,000 responses from local and independent legal experts in the EU.

Scores range from 0 to 1, where 1 signifies the highest possible score and 0 signifies the lowest possible score.<sup>1</sup>

## PEOPLE'S VOICES

Based on regionally representative surveys of over 64,000 respondents from the general population.

Data is presented at the question level, shown in percentages, and can be further disaggregated by income, gender, age, and degree of urbanization.

Noting the diversity of institutional designs across EU Member States, this project's survey questions focus on the individuals' experiences related to justice, governance, and the rule of law. These experiences and their ultimate outcomes result from their interactions with a complex network of institutions at local, national, and supranational level.

In this sense, the questionnaires minimized references to government institutions, focusing instead on the perceptions and experiences of people in the city, town, or village where they live. Regional information was produced following the framework of territorial divisions of the Nomenclature of Territorial Units for Statistics (NUTS) system.

WJP EUROVOICES builds upon the well-established and tested methodology of the WJP Rule of Law Index, but uses an expanded conceptual framework adapted to reflect the institutional architecture in the EU. In addition, it presents data from the public and legal experts separately (thus, **the WJP Rule of Law Index and WJP EUROVOICES are not comparable**).

WJP EUROVOICES features dozens of indicators organized into three thematic areas: "Democracy and Fundamental Rights", "Justice and Safety", and "Transparency and Corruption". This data, which can be analyzed both at the country<sup>2</sup> and local level, provides actionable insights to guide policymaking, strengthen institutions, and foster inclusive, and sustainable development across the EU.

WJP EUROVOICES reports with key findings, interactive dashboards, and full datasets, published in November 2024, are available at: <https://eurovoices.worldjusticeproject.org/>

<sup>1</sup> To ensure data reliability, expert scores for certain regions are excluded from the Expert Scorecard due to insufficient responses for robust calculations.

<sup>2</sup> For all indicators, country-level data, when presented, is calculated using weighted averages of region-level scores based on population size.

## Regions analyzed and completed surveys per EU country
